SUBJECT: Docket #98N-1038

Please keep the prominent labeling for **irradiation or irradiated** foods.
Any other terms would be misleading to the public.

The absence of a statement indicating irradiation of foods would be
deceptive because irradiation destroys vitamins and causes changes in
spoilage qualities that are not expected by consumers.

**We have a right to know when food has been altered by radiation.
Save our freedom of choice!**

Sincerely,

Stephen Price
